University of Minnesota Continuing Dental Education

Dental & Medical Management Updates for an Aging Population

Friday, November 3, 2017
Continuing Education & Conference Center
St. Paul, Minnesota
6 Credit Hours

Practical updates on:

- The older adult population
- Medical risks
- Current medication issues
- Dental medical management
- Dementia
- Cognitive loss

SCHOOL OF DENTISTRY

University of Minnesota
Driven to Discover™
Build your skill set in providing safe and effective treatment for older adult patients. Five invigorating experts will build your knowledge base in treating older adults.

**BENEFITS**

You will leave this program better able to:

- recognize the current profile of the older adult population and the challenges it presents to health care.
- assess and manage medical risk in older adults.
- describe potentially inappropriate medication use in older adults.
- describe the appropriate use of common dental drugs, including analgesics and antibiotic prophylaxis.
- recognize the signs and symptoms of dementia.
- apply practical strategies to facilitate dental care of older adults with dementia.

**EDUCATIONAL METHODS**

Illustrated lectures and discussion.

---

**AGENDA**
