Gifts-in-Kind to the School of Dentistry

The School of Dentistry receives items of value that are not cash and require notification of the proper officials for acceptance and approval. Non-cash gifts, or gifts-in-kind, may include items such as dental equipment, reference books, dental materials, etc.

In order to be accepted, the donation must be deemed useful by the School of Dentistry and approved by a faculty member. If accepted, the gift-in-kind donation will be acknowledged by the School of Dentistry and receipted by the University of Minnesota Foundation.

If interested in inquiring about a potential donation, please contact Nicki Black, Annual Giving and Stewardship Coordinator, at black842@umn.edu or 612-301-6663. Your inquiry should include specific details about the nature of the potential donation and how it would be useful to the School of Dentistry. If approved, you will receive further instruction on how to make your donation.

For more information about gifts-in-kind, please review the University of Minnesota Foundation's *Information on Gifts of Tangible Personal Property*.
