Currently there are 88 licensed dental therapists (DTs) licensed to practice in Minnesota, 52 of which are certified advanced dental therapists (ADTs). This information is a snapshot of the employment environment as it continues to evolve.

Status

- 82 are employed
- 3 not seeking employment

Location

- 63 practice in the 7-county metro area
- 40 practice in Greater Minnesota

Clinic Type

- 54 in Private Practices
- 21 in Non-Profit Clinics
- 9 in FQHCs
- 8 in Large Group Clinics
- 3 in Educational Institutions
- 8 in Hospitals

*All DTs regardless of clinic type are providing care to underserved patients. The number of clinic locations and types differ from the number of employed DTs due to the fact that many graduates work in multiple settings and some clinics employ more than one dental therapist.*
