Fall Dental Hygiene Seminar

September 9, 2016 • Continuing Education & Conference Center • St. Paul, Minnesota

Reunite with colleagues and friends as you benefit from six succinct updates specifically targeted to the dental hygiene practitioner.

Focused on new and practical information —

Fall Dental Hygiene Seminar

Friday
September 9, 2016

Receive practical updates on:
• Patient Addiction
• Implant Failures
• Tobacco Cessation
• Infection Control Protocols
• Periodontal Treatment Protocols
• The Electronic Health Record

Continuing Education & Conference Center
St. Paul, Minnesota
REASONS TO ATTEND
You will benefit from the diversity of clinical topics and the opportunity to interact with seven engaging speakers. These experts will share insights from their clinical fields and will respond to your specific questions.

The 2016 program will give you the knowledge to:
- apply more effective language and tools in managing the addicted patient.
- describe the variety of presentations of a failing implant.
- explain how participation in the Call-It-Quits tobacco cessation program can positively impact a patient’s life.
- provide “The Safest Dental Visit” infection control protocols to each patient encounter.
- construct an evidence-based periodontal management protocol for your practice.
- determine the electronic health record’s impact on your clinical practice.

WHO SHOULD ATTEND
This program is designed exclusively for dental hygienists.

EDUCATIONAL METHODS
Illustrated lectures and discussion.

WHAT OTHERS HAVE LIKED ABOUT THIS PROGRAM
- Great evidence-based information for take-aways.
- “Nice pace.”
- “Great presenters, relevant topics, good answers to follow up questions.”
- “Always enjoy the choice of speakers that are here.”
- “Practical use that can be immediately used in my practice.”
- “Kept my interest.”

Would you like to improve your confidence in taking digital radiographic images? Could you use a refresher on intraoral radiographic technique? Receive the tips and tricks you need to create diagnostic quality periapical, bitewing and panoramic images during this practical hands-on course. You will gain experience:
1. placing and exposing digital radiographs on a skull,
2. evaluating the images for diagnostic quality, and
3. placing digital sensors on each tooth. Experienced instructors will be available to offer one-on-one instructions and immediate feedback on your technique.

For more information or to register, access our website: www.dentalce.umn.edu, or call: (800) 685-1418 or (612) 625-1418.

Mastering Digital Full-mouth & Panoramic Radiographic Technique: A Hands-on Program
Saturday, September 17, 2016
University of Minnesota School of Dentistry
8:30 AM to 4:45 PM - 7 credit hours

REGISTRATION & GENERAL INFORMATION
Continuing Education Credits
This course is designed to provide 7 hours of continuing education credit. However, credit given depends on hourly attendance (1 hour = 1 credit.)

This course will fulfill the Minnesota Board of Dentistry core competency requirement for continuing education credit in dental recordkeeping and infection control.

Registration by Phone, Mail, Fax or via the Internet
• Register online via our secure website at www.dentalce.umn.edu.
• Mail in your registration form along with your check or credit card information (Visa, MasterCard, American Express or Discover).
• Call (800) 685-1418 or (612) 625-1418 and use your credit card to register.
• Fax your registration and credit card information to us at (612) 624-8159.

Parking
Parking is included. Parking information will accompany your course confirmation materials.

To request disability accommodations, please contact Continuing Dental Education, University of Minnesota, 4-406 Moos HS Tower, 515 Delaware Street SE, Minneapolis, MN 55455; (800) 685-1418 or (612) 625-1418.

ADA CERP
The University of Minnesota School of Dentistry is a CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The University of Minnesota School of Dentistry designates this activity for 7 continuing education credits.
