University of Minnesota Continuing Dental Education

Differential Diagnosis of Oral Lesions: An Interactive Lecture Program

Friday, October 27, 2017
Continuing Education & Conference Center
St. Paul, Minnesota
6 Credit Hours

Improve detection and diagnosis of:

- Soft tissue and bone lesions
- Gingival swellings
- Salivary gland and palatal swellings
- Oral ulcers and brown spots
- Papillary lesions
- Radiolucent and radiopaque lesions
Dr. Dolphine Oda, a highly distinguished oral pathologist and teacher, will share indispensable information to help improve your capacity to detect and diagnose a variety of oral diseases. Join us for an in-depth and interactive discussion of numerous clinical case presentations.

**BENEFITS**

You will be able to:
- identify which lesions need to be biopsied and which do not.
- apply clinical judgment in differentiating between benign and malignant lesions.
- formulate an applied differential diagnosis specific to various oral diseases.
- recognize the oral manifestation of certain systemic diseases.
- integrate knowledge about HPV and oral cancer.
- interpret radiolucent and radiopaque lesions of the jaw.

**EDUCATIONAL METHODS**

Illustrated lectures and discussion.

“U of M CDE offers high quality, relevant and top-notch programs.”
~Past Participant

“Practical, unbiased, and extremely informative programs!”
~Past Participant

“Excellent programs. Thank you!”
~Past Participant
1:00 PM
Oral Ulcers
- Immune mediated
- Drug induced
- Infectious/viral
- Hypersensitivity and nutritional
- Oral manifestation of systemic diseases

2:15 PM
Networking/refreshment break

2:30 PM
Unicystic Radioluencies
- Primary malignancies
- Metastatic disease
- Odontogenic cysts and neoplasms

3:45 PM
Question and answer session

4:15 PM
Adjourn

Dr. Oda is a Diplomate of the American Board of Oral and Maxillofacial Pathology. She is also a member of the American Academy of Oral and Maxillofacial Pathology, the International Association of Oral Pathologists, and the U.S. and Canadian Academy of Pathology (USCAP).

Dr. Oda has received the University of Washington’s Distinguished Teaching Award, the highest honor for outstanding teaching, and a lifetime achievement award by the Oral Cancer Foundation for over 30 years of service to oral cancer patients. Her research interests include molecular changes in oral carcinogenesis and HPV and oral cancer. Dr. Oda has published 75 papers in refereed journals and publishes a popular monthly column called Case of the Month.
