The Bottom Line on Tooth Bleaching 2017  
Friday, September 22, 2017

PRELIMINARY PROGRAM
Continuing Education & Conference Center • St. Paul Campus

8:30 Final registration and assembly
8:55 Welcome and introduction

9:00 The Bleaching Examination, Indications & Contraindications
Dr. Van Haywood
- different materials for tray bleaching and patient instructions
- radiographs needed for diagnosis
- treating teenagers and children

10:15 Networking/refreshment break

10:30 Bleaching Brown, White, Nicotine Stains & Tetracycline Stains
- comparing in-office and OTC products
- different treatment times and techniques

12:00 Question and answer session

12:15 Luncheon (included)

1:00 Bleaching Single Dark Teeth—both endodontically treated and vital
- combined approach for endodontically treated teeth with special trays

2:15 Networking/refreshment break

2:30 Sensitivity Treatment & Caries Control
- different tray designs for materials, including boil and form options
- bleaching materials for caries control in elderly and orthodontic patients
- new insights in caries process—how bleaching impacts the progression of decay

3:45 Question and answer session

4:15 Adjourn
SPEAKER

Van B. Haywood, D.M.D., Professor, Department of Restorative Sciences, Dental College of Georgia at Augusta University. In 1989, Dr. Haywood co-authored the first publication in the world on nightguard vital bleaching (at-home tray bleaching) with Dr. Harald Heymann, and in 1997 co-authored the first article on extended treatment (six-months) of tetracycline-stained teeth using this technique. He has completed further research and over 145 publications on the tray bleaching technique and the topic of bleaching and esthetics, including first papers on treating bleaching sensitivity with potassium nitrate, direct thermoplastic tray fabrication, bleaching primary teeth, and caries control with bleaching materials. Many of these articles are on his website www.vanhaywood.com. His book Tooth Whitening: Indications and Outcomes of Nightguard Vital Bleaching, was published by Quintessence International in 2007 and is now available on iBooks. Dr. Haywood has lectured in over 30 different countries, 31 states and several dental schools, including four schools abroad. Since 2001, he has been listed every year in the “Top Leaders in Continuing Education” for the United States by Dental Products Report. His main areas of speaking involve bleaching, sensitivity, and caries control. Related topics include smile analysis, bonding, occlusion, restorative dentistry, and splints, with how those areas relate to a functional and esthetic evidence-based conservative treatment of a patient.

Dr. Haywood has received grants/research and other financial or material support from Ultradent Products, Inc. and Archtek, Inc.

This program is supported by Ultradental Products, Inc.

This program is funded in part by an unrestricted educational grant from Ultradent Products, Inc.
