CONTINUING DENTAL EDUCATION
School of Dentistry
University of Minnesota

11th Annual Robert J. Feigal Symposium:
Clinical Updates in Children’s Dental Care
Friday September 15, 2017
Continuing Education & Conference Center
University of Minnesota St. Paul Campus

PRELIMINARY PROGRAM

8:00 Final registration and assembly
8:25 Welcome & Introduction Dr. Richard Baylon
Adjunct Assistant Professor, Division of Pediatric Dentistry
Chair, Feigal Symposium Planning Committee
8:30 Universal Adhesives—Myths and Facts Dr. Jorge Perdigão
- dentin—a challenging substrate for adhesion
- universal adhesives in pediatric dentistry—etch and rinse or self-etch?
- universal adhesives—advantages and shortcomings
- chlorhexidine and MMP’s—what does the clinical evidence show?
- adhesives with antibacterial properties?
- clinical studies

Enamel White Spot Lesions—Is Resin Infiltration the Solution?
- risk factors for white spot lesions
- why does enamel look white in white spot lesions?
- anterior teeth—masking white spot lesions with resin infiltration
- posterior teeth—treating incipient carious lesions with resin infiltration
- when to use “enamel macroabrasion” for white enamel lesions
- resin infiltration—clinical and laboratory research
- clinical cases

10:00 Question & Answer Session Dr. Perdigão
10:15 Networking/Refreshment break

10:30 Management Considerations for Pediatric Oral Surgery Dr. Robert Nadeau
- mesiodens
- cysts
- frenectomy
- extraction of bony impacted molars
- 3rd molar extractions (when and if to remove)

12:00 Question & Answer Session Dr. Nadeau
12:15 Luncheon (included)
1:00  Oral Medicine in Children: What does a busy dental practitioner need to know about oral lesions in children and adolescents?  Dr. Juan Yepes

- Most Common Oral Lesions
  - differential diagnosis
  - treatment decisions

2:30  Networking/Refreshment break

2:45  Oral Medicine in Children (continued)

4:00  Question & Answer Session  Dr. Yepes

4:15  Adjourn

Speakers

Robert A. Nadeau, D.D.S., M.D., Clinical Assistant Professor, Division of Oral and Maxillofacial Surgery, Department of Developmental and Surgical Sciences, University of Minnesota School of Dentistry; Diplomate, American Board of Oral and Maxillofacial Surgery. Dr. Nadeau completed dental school at the University of Minnesota in 2005 and finished an internship in Oral and Maxillofacial Surgery at the Minneapolis Veterans Affairs Medical Center in 2006. He completed his Oral and Maxillofacial Surgery residency at the University of Missouri, Kansas City Schools of Dentistry and Medicine in 2012, and his Medical Degree in 2010 at the University of Missouri, Kansas City, School of Medicine, followed by an Internship in General Surgery in 2011 at Truman Medical Center in Kansas City. Dr. Nadeau has on-going research projects in mental health during residency, long term local anesthetics and in opioid prescribing habits among dental professionals.

Jorge Perdigão, D.M.D., M.S., Ph.D., Professor, Division of Operative Dentistry, Department of Restorative Sciences, University of Minnesota School of Dentistry. Dr. Perdigão is involved in the research of new dental materials mainly in the area of dentin bonding and new composite resins. He has delivered over 250 lectures in Asia, Europe, North America, Oceania, and South America and has published over 140 scientific articles in international journals. He has served as an associate editor, section editor or an editorial board member for different professional journals in operative, esthetic/adhesive dentistry and biomaterials. Dr. Perdigão has also authored seven chapters on dental adhesion in several textbooks, including the Sturdevant’s Art and Science of Operative Dentistry (Mosby), and is Editor and author of the books Restoration of Root Canal Treated Teeth: An Adhesive Dentistry Perspective (Springer) and Tooth Whitening: An Evidence-Based Perspective (Springer). Dr. Perdigão is a consultant for several manufacturers worldwide in the development of new adhesive dental materials and serves also as a consultant to the ADA Committee for Scientific Affairs and to the Federal Drug Administration.
Speakers (continued)

Juan F. Yepes, D.D.S., M.D., M.P.H., M.S., Dr.PH., Associate Professor, Department of Pediatric Dentistry, Indiana University School of Dentistry; attending at Riley Hospital for Children in Indianapolis, Indiana. Dr. Yepes is a dentist and a physician from Javeriana University at Bogotá, Colombia. In 1999, he moved to the USA and attended the University of Iowa and the University of Pennsylvania where he completed a fellowship and residency in Radiology and Oral Medicine respectively in 2002 and 2004. In 2006, Dr. Yepes completed a master’s degree in Public Health, and in 2011 a doctoral degree in Public Health, both with emphasis in Epidemiology at the University of Kentucky College of Public Health. In 2008, he completed a residency program in Dental Public Health at University of Texas, and in 2012 he completed a residency program and a masters in pediatric dentistry at the University of Kentucky. Dr. Yepes maintains Diplomate status with the American Board of Oral Medicine, the American Board of Dental Public Health, and the American Board of Pediatric Dentistry.

This program is supported by Mayclin Dental Studio, Inc.

This program is partially supported by the Robert J. Feigal Lectureship in Pediatric Dentistry, a fund established with the University of Minnesota Foundation with the purpose of promoting an annual symposium in Dr. Feigal’s name covering contemporary pediatric dental topics. Lectureship funding this year will support resident attendance.
