Taking Dentistry Beyond Sleep Apnea and Appliances Seminar
Friday, March 9, 2018

Continuing Education & Conference Center • St. Paul Campus

8:00  Final registration and assembly. Continental breakfast

8:25  Welcome

8:30  **Sleep Breathing Disorders from a Physician’s Perspective**  Dr. Charlene McEvoy

- Analyze sleep apnea
- Discuss the physician’s perspective: who is NOT a good candidate for an oral appliance?
- Compare benefits of sleep studies: in-lab versus home sleep studies
- Read and interpret sleep studies before and after treatment

10:00  Refreshment break

10:15  **Sleep Bruxism: Current Concepts in Etiology and Management**  Dr. Vladimir Leon

- Express the classical and current concepts of sleep bruxism
- Examine the etiology, mechanism, and prevalence of sleep bruxism in children
- Discuss the role of sleep bruxism in sleep apnea
- Analyze possible treatment options of sleep bruxism for patients with sleep apnea
- Review the side effects of intraoral appliances used for sleep apnea and sleep bruxism

11:45  Luncheon

12:30  **Management of Obstructive Sleep Apnea with Oral Appliances**  Dr. Mariona Mulet Pradera

- Define the role of the dentist during the initial visit: treat versus refer
- Develop bite registration strategies: how early do you start treatment?
- Determine which oral appliance to choose
- Analyze the risk of patients who have TMD
- Select treatment protocol: how fast do you titrate?
- Discuss anticipated side effects
- Develop retest strategies: knowing when and why

2:30  Refreshment break
Surgical Management of Obstructive Sleep Apnea  Dr. Robert Nadeau

Review and describe mechanical and anatomical factors
Discuss common and new surgical procedures
Analyze proper patient selection, indications and contraindications, complications and expected outcomes of varied procedures

Meet Our Experts

Vladimir Leon-Salazar, DDS, MSD, Diplomate of the American Board of Orthodontics. Dr. Leon-Salazar started his education in dentistry at Inca Garcilaso de La Vega University in Peru before receiving his Master of Science in Orthodontics from the University of Sao Paulo in Brazil. He went on to earn Advanced certificates in both Orthodontics and TMD and Orofacial Pain from the University of Minnesota. Before turning his attention to private practice, he served as the Director of Orthodontic Training at the University of Minnesota’s Advanced Education program.

Charlene McEvoy, MD, is a pulmonologist providing care in St. Paul and is affiliated with multiple hospitals in the area including Hudson Hospital and Clinics and Regions Hospital. She received her medical degree from University of Minnesota Medical School and has been in practice for 29 years.

Mariona Mulet Pradera, DDS, MS, Associate Program Director, Graduate Program in TMD and Orofacial Pain, Department of Diagnostic and Biological Sciences, University of Minnesota School of Dentistry. Dr. Mulet maintains a clinical practice with HealthPartners focusing on temporomandibular disorders, orofacial pain, oral medicine, and dental sleep medicine. She is a Diplomate of the American Board of Orofacial Pain and the American Board of Dental Sleep Medicine. This course is under the direction of Dr. Mulet Pradera.

Robert Nadeau, DMD, MD, Clinical Associate Professor and Clinical Director, Division of Oral and Maxillofacial Surgery, Department of Diagnostic and Biological Sciences, University of Minnesota School of Dentistry. He completed his undergraduate and dental education at the University of Minnesota and his Graduate Training Program in Oral and Maxillofacial Surgery and medical degree at the University of Missouri, Kansas City. Dr. Nadeau received his certification from the American Board of Oral and Maxillofacial Surgery in 2015.
The University of Minnesota School of Dentistry has an obligation to disseminate new knowledge related to dental practice. Some programs offered through Continuing Dental Education may introduce materials, techniques or product references that are subject to debate. Sponsorship of courses by the University of Minnesota School of Dentistry does not necessarily imply endorsement of specific philosophies, procedures or products by this institution. Recognizing that you may be learning about new procedures, techniques and materials that you may not yet be familiar with, we ask that you take every precaution when implementing these new materials and techniques into your practice.

The University of Minnesota School of Dentistry is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.
