SAVE THE DATE
May 31 - June 1
2019

Our speakers include:
• Leonidas Batas, DDS, MSD, PhD
• Suheil Boutros, DDS, MSD
• Alejandro Kovacs, DDS, MSD
• Tiernan O’Brien, DDS, MSD
• Bruce Pihlstrom, DDS, MS
• Mauricio Ronderos, DDS, MSD, MPH
• Keerthana Satheesh, DMD, MSD
• Caspar Wohlfahrt, DDS, MSD, PhD

Our topics include:
• Keynote Presentation: Impact of clinical research on the daily practice.
• Peri-implantitis Treatment: Just Postponing the Disaster?
• Multidisciplinary Treatment: The Role of the Periodontist.
• Implant replacement of congenitally missing lateral incisors.
• Rehabilitation concepts for the complete edentulous and the patient with failing dentition.
• Correction of mucogingival defects in the daily practice.

Dear Alumni and Friends,

We are excited to share the date for the second Erwin Michael Schaffer Symposium!

Dr. Erwin M. Schaffer was a periodontist and former Dean of the University of Minnesota School of Dentistry. In the mid-1950s he was a pioneer in regenerative periodontics, and was one of the founders of modern scientific, evidence-based periodontology, with over 100 articles published in scientific journals.

Dr. Schaffer served as director of the American Board of Periodontology and president of the American Academy of Periodontology (AAP). As such, he helped guide the development of the specialty at the national level.

In 1987, the Dental School established the Erwin Schaffer Chair in Periodontal Research in his honor. The first Erwin M. Schaffer Symposium was held in 1993, and it is time to bring it back!

The proceeds of the Symposium will give you the chance to support new clinical and didactic initiatives for our Graduate Perio Program.

Please join us, on campus, May 31 and June 1, 2019. We are looking for a tentative head-count. If you are interested in attending, please let us know here.

Additional speakers and program details will be coming soon. Please contact Shelby LaFreniere with any questions at shelbyl@umn.edu.
