University of Minnesota Continuing Dental Education

The Bottom Line on Tooth Bleaching 2017

Friday, September 22, 2017
Continuing Education & Conference Center
St. Paul, Minnesota
6 Credit Hours

Practical updates on:

- Comprehensive bleaching exams
- Treatment options
- Brown and white discolorations
- Nicotine and tetracycline stains
- Bleaching sensitivity
- Tray fabrications
Spend a day with Dr. Van Haywood, a highly recognized authority on tooth bleaching and obtain clinical information that can be immediately applied to your practice!

**BENEFITS**

You will learn to:
- recognize the components of a comprehensive bleaching examination.
- identify differences between tray, in-office and OTC products and techniques.
- discuss treatment options for brown and white discolorations plus nicotine stains.
- describe the treatment of tetracycline-stained teeth and long-term safety.
- recognize indications for and evidence to support different bleaching techniques.
- explain bleaching options for single teeth with internal and external stains.
- explain the reasons for bleaching sensitivity and how to treat and avoid it.
- describe caries control with bleaching agents in children and adults.
- recognize issues related to bonding and selecting shades for bleached teeth.
- describe various tray fabrications techniques and indications.

**EDUCATIONAL METHODS**

Illustrated lectures and discussion.

This program is supported by Ultradent Products, Inc.

---

“Excellent, practice, scientific-based information.”
~ Dr. John Betz, Nogales, Arizona

“Answered all the questions I had on bleaching.”
~ Past Participant

“Thank you. I learned so much today!”
~ Past Participant
1:00 PM  
**Bleaching Single Dark Teeth—both endodontically treated and vital**  
- Combined approach for endodontically treated teeth with special trays

2:15 PM  
Networking/refreshment break

2:30 PM  
**Sensitivity Treatment & Caries Control**  
- Different tray designs for materials, including boil and form options  
- Bleaching materials for caries control in elderly and orthodontic patients  
- New insights in caries process—how bleaching impacts the progression of decay

3:45 PM  
Question & answer session

4:15 PM  
Adjourn

---

**Van B. Haywood, DMD**  
Dr. Haywood is a Professor in the Department of Restorative Sciences at the Dental College of Georgia at Augusta University. In 1989, he co-authored the first publication in the world on nightguard vital bleaching with Dr. Harald Heymann, and in 1997 co-authored the first article on extended treatment of tetracycline-stained teeth using this technique.

Dr. Haywood has completed further research and over 145 publications on the tray bleaching technique and the topic of bleaching and esthetics, including first papers on treating bleaching sensitivity with potassium nitrate, direct thermoplastic tray fabrication, bleaching primary teeth, and caries control with bleaching materials.

He has lectured in over 30 different countries, 31 states and several dental schools, including four schools abroad. Since 2001, Dr. Haywood has been listed every year in the “Top Leaders in Continuing Education” for the U.S. by Dental Products Report. He has received grants/research and other financial or material support from Ultradent Products, Inc. and Archtek, Inc.
